

Breathe easy. The October Company is CARB compliant.

The October Company has achieved CARB Rule compliance for all October Company products that use composite wood materials. This includes silverware trays, jewelry trays and closet components. This means you can use and sell October Company products in California with full documentation that they meet the recently enacted CARB formaldehyde regulations there.

Rest easy with quality craftsmanship. Breathe easy with CARB compliant products. Contact us to learn more about October Company products and our CARB documentation.

Beautiful on the inside.
